1. Informed Mr. Arens, Immigration Subcommittee of the Senate Judiciary Committee, that this Agency had no opposition to the provision of the House DP law which would permit 15,000 DP's from behind the Iron Curtain, and that they would in all probability receive the most thorough screening of any of the personnel allowed into this country under the DP legislation.
2. Mr. Barber, Bureau of the Budget, informed me that Senator Wherry had in his possession photostatic copies of the police record of the CIA employee engaged in homosexual activities, and planned to make use of same on the floor of the Senate at an appropriate time. I have transmitted this information to the Director.
3. Spoke to Mr. Gonzalez, Sen. Chavez' office, and told him we were going to have to let [REDACTED] go, and he said as long as he was not doing the job it was all right with them.
